<b>6. Compulsory age phase</b>	Compulsory education in Luxembourg covers 11 years: two years of pre-primary school (4 to 6 years), 6 years of primary school (6 to 12 years), and the first three years of secondary school (12 to 15 years). 1 year of non-compulsory school is offered to children aged 3 to 4 years.
<b>7. Clarification of Public - Private sector education</b>	The Luxembourg State is in charge of organising and controlling the educational system. Public and private schools teach the same topics. In Luxembourg most primary and secondary schools are public schools. Public education is free of charge. Private schools are nearly all Catholic schools and are not free of charge. Private schools in these figures are grant-aided schools. Non grant-aided international schools are not listed in these statistics.
<b>8. Legal Definition of SEN</b>	Law of Special Education of 1973: 'The Government makes sure that every child because of his/her mental, sensory, emotional or motor particularities gets the instruction required by his state or situation in the structures of Special Education.' Law of 1993 states that the named children can be included in mainstream schools.
