Preface

The European Agency for Special Needs and Inclusive Education was established in 1996 as an initiative of the Danish Government, endorsed by the member states’ Education Ministers.

The establishment of the Agency took place at the end of the European Commission’s Helios II programme and reflected the need for a permanent and systematic structure for European collaboration in the field of special needs and inclusive education.

In 1999, following a three-year trial period funded by the Danish education authorities, the Agency was transferred to the member states. This formally established the Agency as a European organisation with the mandate to act as its member states’ platform for collaboration in the field of special needs and inclusive education.

The Agency’s original name was European Agency for Development in Special Needs Education. The current name – European Agency for Special Needs and Inclusive Education – formally came into effect as of 1 January 2014 to better reflect the Agency’s current and future activities.

**Objectives**

The Agency aims to improve educational policy and practice for learners with special needs. This aim takes into account issues such as equal opportunities, accessibility, inclusive education and the promotion of quality of education, whilst recognising the differences in countries’ policies, practice and contexts.

The Agency acts as the key European level organisation that provides different types of real-time and virtual opportunities for exchanging knowledge and understanding in the field of special needs education.

This includes:

- Providing opportunities for effective exchange of information and experience among, as well as within member countries;
- Ensuring a reliable reflection of the reality of special needs education across Europe with up to date information that can be related to individual countries’ National contexts;
- The identification of key factors and contexts that hinder or support positive experiences;
- The provision of information outputs, activities and events at the European level;
- The Agency actively maintains co-operative and mutually beneficial relationships with other key European and International bodies in the field of education with particular emphasis on special needs education.

The main target groups of the Agency are the policy makers, experts and professionals who influence policy and practice in special needs education.

**Article 3**

**Membership and Funding**

The Agency is an equitable association of European countries.

Other European countries may be granted the status of observers for one year or be admitted as members of the Agency.
Only member and observer countries can attend the Agency’s formal meetings whilst other countries may attend some of its thematic meetings and information dissemination events by invitation.

Member countries must pay an annual membership fee by 15 February. This fee is calculated on the basis of a formula based on population bands (see Annex 1).

Complementary to this, the Agency should make an active effort to encourage the EU Institutions (European Commission and European Parliament) to provide funding in support of the Agency’s general functioning and specific activities.

The Danish authorities make secretariat facilities available on favourable conditions.

Liquid assets not necessary for the day-to-day operations of the Agency may be placed as deposits in banks in any country within the European Union.

Accession or resignation as a member of the Agency requires an official notification from the Ministry of Education for the country in question. In a case of resignation, notification must be given to the Agency no later than 1 October the year before the resignation comes into effect.

Article 6

The Management Board

The Management Board is elected by the Representative Board from amongst its members. The Management Board is comprised of five members in addition to the Agency Chair.

The election takes place at the last meeting of the Representative Board in an election period. A new election period commences on the following January 1st and runs for a period of 3 years. Members of the Management Board can be re-elected, but there must be a gap of at least one year before re-election is possible.

The election to the Management Board is personal. Therefore, if a member of the Management Board for any reason whatsoever no longer upholds his or her appointment to the Representative Board, a re-election to the vacant seat on the Management Board has to take place in order to choose a new member for the remaining election period.

Voting at the election to the Management Board shall be in writing. The maximum number of votes that each country can cast corresponds to the number of vacancies. A country can use all of its votes or only some of them. A country can only give one vote per candidate. In the event of a tie between two or more candidates, a re-election between these candidates has to be called. In the event of a tie after the re-election the decision is reached by the drawing of lots.

The Management Board discusses the outcome of the work programme and projects with the Director and advises on strategies for the most effective dissemination of all Agency reports and publications.

The Management Board discusses with and advises the Director regarding the preparation of the budgets, accounts and the annual report for presentation to and approval by the Representative Board. The management of the budget by the Director is monitored by the Management Board and the Management Board signs the annual accounts following discussion and approval by the Representative Board.

The member country is responsible for the expenses related to the activities of its National Co-ordinator who will need, at a minimum, a budget for communication, travel and information dissemination.

Membership Fees

Membership fees are calculated on the basis of the following formula based on population bands dividing member countries into five groups:

<table>
<thead>
<tr>
<th>Group</th>
<th>Year 2016 onwards</th>
</tr>
</thead>
<tbody>
<tr>
<td>Group 1 (up to 3 million inhabitants)</td>
<td>EUR 17,150</td>
</tr>
<tr>
<td>Group 2 (more than 3 million and up to 8 million inhabitants)</td>
<td>EUR 34,300</td>
</tr>
<tr>
<td>Group 3 (more than 8 million and up to 21 million inhabitants)</td>
<td>EUR 51,450</td>
</tr>
<tr>
<td>Group 4 (more than 21 million and up to 50 million inhabitants)</td>
<td>EUR 68,600</td>
</tr>
<tr>
<td>Group 5 (more than 50 million inhabitants)</td>
<td>EUR 85,760</td>
</tr>
</tbody>
</table>

If a country’s population increases or decreases so that it falls outside its current population band and the population figure remains outside the population band for three consecutive years, the country will be transferred to the relevant population band and its membership fee will be adjusted accordingly.
