Special Education in the Netherlands

- Cluster 4; severe behavior or psychiatric problems, which forms a structural limitation in participating education.

Criteria Cluster 4

- Developmental psychopathology based on DSM IV or ICD 10 with severe social and emotional or behavioral problems with full character and specific help from child welfare and/ or psychiatry and insufficient capabilities of regular education.

Targets De Kapstok

- What we want to achieve:
 - To teach them social skills,
 - To teach them to cope with their disabilities
 - To teach them a profession
 - Guide them to (whether subsidized or not) labour
 - Guide them to further study

Educational psychologist

- Providing diagnostic research and guiding practical implementation of this research
- Coach and support teachers
- Conducting test, conducting observation
- Conducting interviews with pupils, parents and carers
- Making Individualized education program (IEP)

Educational psychologist

- Making reports for employers, social carers, UWV (unemployment insurance services)
- Monitoring the progress of students during their school career(from inflow to outflow)

From inflow to outflow
